Work experience

Full stack developer | Open Source contributor
Since June 2023 Fiverr, Upwork Lahore
As a **full-stack freelance developer** and **open-source contributor** since May 2023, I have been working on a variety of projects that have honed my skills in both front-end and back-end development. I have contributed to open-source projects, which has allowed me to collaborate with other developers and learn from their experiences. My experience as a freelance developer has given me the opportunity to work with clients from different industries and backgrounds, which has helped me develop a diverse skill set.

Software Engineer
From March 2023 to May 2023 OptimaGeeks Lahore
Work as Full stack Web and Mobile Developer. Technologies include MEAN, MERN and React Native.

Associate Software Engineer
From October 2021 to February 2023 Optima Geeks Lahore
As an associate software engineer, I have worked on different technologies with major focus on React Native. Others are React, Angular, NodeJS and MongoDB. My major tasks during my work here:
- Bug fix
- Introduce new feature
- Designing front end
- Re-designing layouts
- add new Rest end point

Flutter Developer
From March 2020 to April 2020 MedDeliver NUST Technology Park

React Native Internee
From June 2019 to August 2019 BitSol Technologies Islamabad
